

UNITED STATES MAKES PLANS

Will Not Join England and Japan in the Demonstration Against Russian Greed.

BREACH OF FAITH

State Department To Send Official Notification That It Protests Against Seizure of Manchuria.

(Special By Scripps-Mellae.) Washington, April 24.—It is not probable that the United States will take any action in accordance with other powers to force Russia to abandon its plan to secure Manchuria, but will leave it with diplomatic circles to enter a decided protest.

Breach of Faith

Russia's action is considered a decided breach of faith and the state department will forward, through diplomatic circles, a strong protest against any such action as is contemplated by the white czar.

Not Join England

It is said in state office that the United States will not join with England or Japan in making a display of arms in the hopes of frightening Russia but will reply purely on diplomacy.

GOVERNOR SENDS A NEW MESSAGE

Calls Attention to the Railway Rebates and Injustices Done on Both Sides.

Madison, Wis., April 24.—A special message was sent to the legislature today by Governor La Follette, the subject being the railway rebates, attention being called not only to the injustice done to shippers and the public by destroying competition, but to the fact that the sums rebated to the shippers should be, but are not included in the gross earnings reported to state on which the license fee is paid. The governor recommended a law directing the state bank examiner to examine the books of railroads.

The conference committee on the primary election bill made separate reports in each house of the inability to reach an agreement. A bill increasing the salary of the attorney general from three thousand to five thousand dollars was killed in the assembly by a vote of 44 to 42. A bill providing for the establishment of a state railway commission to fix rates was reported favorably by the assembly railroad committee in the form of substitute with provision for the retention of the commodity rate and was made a separate order for next Thursday. A bill providing for compilation of school text books by the state superintendent to be furnished pupils at cost, was killed in assembly 47 to 41. There will be no session Saturday the adjournment being to Monday night.

PENNELLY INQUIRY IS STOPPED

Administrators of Estate Renounce Claim to \$15,000 Policy.

Buffalo, N. Y., April 24.—The effort of the insurance company which issued a policy for \$15,000 on the life of Arthur R. Pennell to have J. Frederick Pennell interplead in Attorney Wallace Thayer's suit against the insurance company came to an abrupt ending when Charles B. Sears, attorney for the administrator, withdrew all claim. The sealed instructions which A. R. Pennell left regarding the purpose of the \$25,000 trust were not produced in court. It was reported they were opened and the attorneys on finding they named Mrs. Burdick as a beneficiary decided a contest would be useless.

POSTS TYNER FROM SERVICE

Postmaster-General Payne Dismisses Man Involved in Recent Postal Scandal

PAPERS MISSING

Tyner's Wife Took Them from the Safe in the Department Thursday Afternoon.

(Special By Scripps-Mellae.) Washington, April 24.—Nothing in the investigation of the post office scandal has so stirred up Washington circles as has the action of Mr. Tyner in taking papers from her husband's vaults in the post office.

SEARCHING INQUIRY

Postmaster Payne says that he will make a most searching inquiry into the matter and that he will secure the papers back again at any cost and if destroyed will hold Tyner responsible.

These papers are now in the possession of the Tyners, who refused to deliver them to the two inspectors of the department who demanded them in the name of the postmaster general. They contain, it is believed, damaging evidence against Tyner and his nephew, who have been charged with giving protection to several turf exchanges, better known as "get-rich-quick" concerns.

CALLS ON KNOX

Attorney General Knox has been called upon to recover the papers and to prosecute the guilty parties. Arrests will follow, as, before the attorney general instructs the United States district attorney to act, the inspectors, who are invested with full federal powers, may take the matter in their own hands and search the Tyner home, which is under surveillance, and make the arrests.

The penalty for this offense is a fine of \$2,000 or three years' imprisonment, or both.

The facts are told tersely in the letter of dismissal signed by Postmaster General Payne. The letter is as follows:

"James N. Tyner, Assistant Attorney General for the Postoffice Department:

"Sir: You are hereby removed from the office of assistant attorney general for the postoffice department.

Furnishes Reasons.

"I deem it proper to give you the reasons for this summary action on the part of the department. Early in the month of March I communicated to you, through a mutual friend, a request for your resignation. After a painful interview with you, and a more painful one with Mrs. Tyner, I consented to modify the demand for your resignation so that it might take effect on May 1, 1903, with the proviso, however, that you were given leave of absence from the time of the acceptance of the resignation to the date of its taking effect, with the understanding that you were not in any way to undertake to discharge the duties of the office.

ACCUSES MRS. TYNER

"Late Thursday afternoon Mrs. Tyner came to the office of the assistant attorney general for the postoffice department, entering in the regular way, and went through the main office to the private office, closing the door behind her. She then unlocked the door entering from the public hall into the private room and admitted her sister, Mrs. Barrett, whose son was formerly assistant in your office, and whose conduct is now under investigation by the department. She also admitted in the same manner, Mr. G. G. Hamner, an expert in the employ of a local safe company, with whom she had made an arrangement to meet her at the department. At her direction Mr. Hamner opened the safe in the room, and she took therefrom all papers, records and articles of every kind and carried them away with her.

DEMANDS RESTITUTION

"Immediately upon learning what had been done I directed the fourth assistant postmaster general to send two inspectors to your house to demand, in the name of the postmaster general, the delivery to them of any papers, documents, or other materials which had been abstracted from the safe. This demand was refused by Mrs. Tyner, and she likewise refused to permit the inspectors to see you or to see and examine the papers in her presence. Mrs. Tyner further stated to the postoffice inspectors that she committed this act with your knowledge and by your direction.

"Further comment on this transaction on my part is not necessary.

"The facts in the case will be submitted to the attorney general of the United States for such action in the premises as he may deem proper.

"H. C. PAYNE,

"Postmaster General."

VALUABLE PUBLIC PROPERTY

The official valuation of the Philadelphia city hall and grounds is \$13,604,000.

SPRING BROOK'S HAPPENINGS

M'KEY BOULEVARD STILL BOTH-ERS THE RESIDENTS-

FIRE AT THE POTATO FACTORY

General Notes of Interest to the Persons Who Live in That Suburb.

Spring Brook is putting on its summer garb and a few weeks more will see the trees leaved out which makes this addition an attractive portion of the city, although the streets are in wretched condition. The business men of this section are much interested in remedying this feature and it is hoped the city authorities will give some attention to the matter.

Referring to McKee boulevard, Mr. Farnsworth, of the Hough Porch Shade factory, said he hoped that some improvements would be made, as they were badly needed. As his company had already expended from \$15,000 to \$18,000 an additional other improvements in contemplation, he thought they were justified in finding a bit of fault.

When the factory was located here, the most expensive and best lots in Spring Brook were chosen as a site, the buildings were set back twelve feet from the street in order to give room for a yard, with green grass and trees and other attractive features, and everything was arranged to make the factory location as pleasant as possible. But so long as McKee boulevard is left as it is, without any established grade, the company does not feel like going on with its improvements and consequently everything is still in an unsatisfactory condition.

New Ware House
Mr. Farnsworth says his company will soon begin the erection of a new storage warehouse for raw material, which will be 40 by 60 feet, and other building operations are contemplated later. This portion of the city is certainly worthy of attention, as many valuable additions to our factory list are here located and the section is certainly adding to the material advancement and prosperity of the town.

Jackson School
There is one pleasing bit of architecture in Spring Brook, however, with a fine setting, and that is the Jackson school that holds the banner given by the Twilight club, for the neatest and best kept grounds and if it does not continue to be the banner school, it will be through no fault of Mr. George Viney, the energetic and painstaking janitor. Already the grounds present a neat and attractive appearance and when the flower beds are filled with color and the vines are covered with their green foliage the setting will be perfect. It is also pleasing to add that the janitor of the school winning the banner is awarded a special prize of \$10 as a token of appreciation of his services in making success possible.

Dangerous Fire
What threatened to be a serious fire broke out in the engine room at the factory of the Concentrated Flaked Potato company, on Eastern avenue, at 3 o'clock yesterday morning. Owing to a defective wall, fire caught in the wooden partition which divides the engine room, and but for prompt action on the part of night Engineer Frank Kuleck the engine plant would have been destroyed. As it was the walls of the engine room were badly charred.

General Notes
John W. Peters, of the Cement Post factory, went to Milwaukee yesterday for a couple of days.

P. Hohenadel, Jr., returned yesterday from a trip in the interests of the canning factory.

Frank Bunyan, of the Flaked Potato company, is in Chicago on business.

Henry Wilhelm, of McKee boulevard, has been confined to his home during the winter with a severe attack of rheumatism, is able to be around again with the aid of crutches.

Mrs. Kakuske and daughter, Mrs. Schleiter, of Jefferson, visited at the homes of Paul Kakuske and George Maas this week.

ST. PAUL ROAD PLANS EXTENSION

If Accomplished, Would Make Janesville the Division Point on Through Western Line.

If plans which it is said are contemplated by the Chicago, Milwaukee, and St. Paul company are carried through to consummation, Janesville will be located on the direct route of all through passenger trains from Milwaukee to Kansas City. Report has it that the visit of Pres. Earling to Shullsburg last Wednesday was with the purpose of investigating the possibility of extending their lines from that city to Dubuque.

For some time the Milwaukee road has owned the right of way between Shullsburg and Dubuque. The item which has blocked commencement upon the construction of the road has been the expense of bridging the Mississippi at Dubuque. It is now said that negotiations have been successfully carried out with the Illinois Central company in regard to the use of their bridge at Dubuque. If this direct route is completed it will shorten the distance between Milwaukee and Kansas City nearly sixty miles.

LODGE DANCE WAS HELD LAST NIGHT

Tribe of Ben Hur Were to Have Danced at East Side Odd Fellows' Hall, But Floor Was Too Weak.

Misfortune attended the Tribe of Ben Hur in planning for the dance to be given by that body last evening. East Side Odd Fellows hall had been engaged for the dance, but too late to make announcement through the papers it was learned that on account of the repairs in progress the dancing floor would be unsafe. Central hall was secured as a substitute and sixty couples assembled for an enjoyable evening. Good music was dispensed by the Baldwin-Rehfeld orchestra. The members of the committees in charge were R. J. Baker, H. D. Murdoch, F. W. Lakeley, Mrs. George Alris, Mrs. George Palmer, Will Bowen, George Alris, D. B. Baker.

LONGEST STEAMER IN THE WORLD

W. W. Watt Inspects the German Liner on Her Maiden Trip to This Country—Now in New York.

New York, April 22.—Courtesy on the part of the American representatives of the great North German Lloyd Steamship line, resulted today in my inspecting the longest and by all reasons the greatest steamer that ever floated the ocean. This boat is no other than the Kaiser Wilhelm II which pulled into New York harbor on Tuesday of this week. All New York was awaiting her arrival and as soon as this ocean racer had been sighted thousands crowded the docks to greet her. Gay bunting as well as thousands of German and American flags decorated the buildings and docks in the vicinity of the landing. Two days of heavy seas on leaving Germany spoiled her chances for a record breaking trip, but in spite of this, this new marvel of the seas made the Atlantic in 5 days and 23 hours. This means a distance of 3160 sea miles and the captain's daily reports show that the boat to be the swiftest and most powerful one ever constructed. She is also the largest and most luxuriously fitted out vessel in the world.

Suites for royalty are on the boat and cost in themselves a fortune to fit out. The arrangements throughout the boat are in different color schemes and are arranged to suit the most fastidious. They are of three classes, the "luxury," the "imperial," and the "state" apartments.

Throughout the vessel has been installed a telephone system. Every cabin suite has a telephone. Accommodations for 2,500 passengers are provided. This boat is wider than any street in Janesville and if seven of her like were placed end to end the distance covered would be one mile.

Her engines are of 40,000-horse power and alone cost more money than any two business blocks in the Bowery City. On this, her maiden trip, all four sets of quadruple expansion engines were used every hour of the time. It took 660 tons of coal every 24 hours to feed her dozens of mammoth fire boxes as well as tons and tons of water to supply her boilers.

After unloading the cargo of freight and human beings two tugs took the monster in tow and soon had her in dock to Jersey City. Here another great public reception awaited the boat and crew. Bands played and thousands turned out and made the day a holiday event and one long to be remembered by the citizens of New York and Jersey City.

ROBINS CAME TO THEIR OLD HOME

Milwaukee Woman Gets Back Her Pets After Their Winter South.

The last robin turned loose last fall by Mrs. Clas of Milwaukee has returned to her aviary and is apparently very happy to be back at its home of last summer. With the exception of two birds, both of whom she knows were killed by hunters all the robins she liberated last fall have returned to her home and sought admission to her aviary.

COAL SITUATION MANY SIDED

DEALERS ALL FEEL THE RESULTS OF PRICES.

OPERATORS CONTROL MARKET

The Local Coal Merchants Say They Cannot Get Coal at Cheap Rates.

More of less ignorance prevails concerning the coal situation, and local dealers are criticised to greater or less extent on that account. The demand for coal at this season of the year of course is light, and consumers are simply buying for present requirements.

This would be true with coal at any price, as very few people stock ahead at this season of the year.

The operators control prices at all lake ports, and their rulings are so arbitrary that there is no appeal. The circulars sent out for April, to manufacturers as well as dealers, quote anthracite coal in Chicago at six dollars per ton. The man who wants a single car can buy it for the same money as the dealer who buys ten or more.

The freight rate from Chicago is uniform at \$1.20 per ton on all anthracite coal, and not \$1.00 as many suppose. The \$1.00 rate only applies to bituminous coal. This makes the coal cost on track at Janesville \$7.20, and to this the expense of unloading and handling it and the cost represents nearer \$8.00 than \$7.00. The margin at \$8.50 in Janesville would be small and under present conditions no dealer could afford to handle it for less.

Operators not only control prices, but they are also independent so far as quality is concerned. A dealer received ten cars, a few days ago, that was billed to him as anthracite but it was evidently mine screenings and so poor that he refused to unload it. No concessions would be made, and the coal was shipped to another town and there retailed.

Janesville consumes from 15,000 to 18,000 tons of hard coal per year. The capital invested in the business is from \$75,000 to \$100,000 and the men engaged in the business are reputable men.

They have been criticised more than any other class of men, because they deal in a commodity that is one of the great necessities of life. When coal was quoted at \$7.00 in Chicago two months ago, there was practically none to be had, and they were forced to go the open market and pay \$12 or do without it.

The Gazette is authorized to say for the dealers that a price will be established the first of May, based on Milwaukee and Chicago, wt. freight added, and that Janesville people will be taken care of.

When lake coal commences to arrive in quantity, the quality will improve. The rate of advance is optional with the operator and is not guaranteed at any special figure. It may be ten cents per ton each month and it may be more.

It is not reasonable to suppose that prices will range as low as they have for the past two years, because, with the settling of the strike, wages have advanced at the mines, and there has also been an advance in eastern freight rates.

If Janesville people are able to secure a good quality of coal at from \$8.50 to \$9.00 for the next winters supply, the price will not be considered exorbitant, and the local dealers will not be getting rich very fast.

RECEIVES INJURY WHILE WORKING

A. C. Hough Has a Painful Accident That May Disable His Hand.

A. C. Hough, superintendent of the Hough Porch Shade corporation, met with a painful accident which will disable his hand for some time to come. At about five o'clock yesterday afternoon he went to one of the machines to rip a small board, supposing that it was adjusted to four-foot lengths. It had been shifted to a larger size, and allowed Mr. Hough's hand to come in contact with the swiftly revolving circular saw, splitting it open between the second and third fingers, and gashing the thumb and little fingers.

LAUREL LODGE DANCE

Very Pleasant Dancing Party at East Side Odd Fellows Hall.

One of the pleasant dances of the early post-Lenten period was held at East Side Odd Fellows hall last evening at the close of their lodge meeting of Laurel Lodge, No. 2, Degree of Honor. The dancing continued until about midnight, sixty-five couples enjoying the rhythmic inspiration furnished by Messrs. Baumann and Hatch. Phil Ohlweiser and Charles Lagerman were the committee in charge.

REUNION PLANS FOR 1898 VETERANS

Milwaukee Will Be the Scene of the Meeting of Spanish War Societies.

Milwaukee is to be the scene of the reunion of the Spanish-American war veterans from camps in the states of Michigan, Minnesota, Iowa, Illinois and Wisconsin. July 3, 10 and 11 are the dates chosen and the Hugh McGrath camp of Milwaukee is making elaborate preparations for the entertainment of the host that is expected to gather. There will be a number of prize drills held from teams picked from crack regiments of the different states and everything will be done that is possible to make the reunion the most successful one ever held.

WISCONSIN LOST ITS THIRD GAME

University Players Are Not Making an Envious Name in the Baseball World.

From all accounts the university of Wisconsin baseball team is fast securing a name for knocking this season. They have played three games with college teams thus far and have lost them all and in their contest with the university of Illinois yesterday left the field at the end of the fourth inning, breaking up the game in a row.

Bad Policy
Chicago papers criticize the Wisconsin players very severely and call their action unsportsmanlike. Coach Huff says that in all his baseball career he never saw such an exhibition of chicanery as the Wisconsin team showed in quitting the field when they were displaced with a decision of the umpire.

Was Defeated
Thus far Wisconsin has played Beloit, Evanston and Illinois and has met defeat each time. The Beloit game they characterized as a practice game and an excuse for the defeat at Evanston and left the field at Illinois.

MODERN UTOPIA FOR POOR CHILDREN

The Colony in New York Will Be a Model in Every Respect.

A village of 277 acres on the Hudson, thirteen miles above New York City, will soon be home, in our age of stupendous enterprise nothing has kept pace with this civilizing march more than the quality of charity. The managers of the New York Juvenile asyrum, now at 1700 Street and Amsterdam avenue, New York have recently adopted a plan for the improvement and enlargement of their work. This institution maintained largely by private contributions was established over fifty years ago, for the purpose of caring for homeless and destitute children.

Since 1851 it has provided for nearly 40,000 youths of both sexes, having kept them with proper schooling and training for the duties of worthy citizens. While the children have had the tender care of the teachers and other officers, the lack of a home atmosphere has been a decided drawback. Profiting by experience in their own and similar institutions throughout the world, the directors of the N. Y. Juvenile Asyrum have decided to build a cottage colony and for this purpose have purchased a large area of land. Here will be erected a village under the government of the superintendent aided by a staff of teachers, nurses and other necessary officers. In this community there will be churches, schools, libraries, work shops, gymnasiums, play grounds, and many living cottages. Work and play will be combined so that the burden of institution life will be eliminated. Each cottage will be under the personal supervision of a house parent, and in order to im- press as far as possible the home spirit there will be no "family" of more than twenty children under one roof. Twenty boys will live in a cottage, some of which will be on the dormitory plan. For the girls there will be fifteen to a cottage, the other conditions being similar to the boys. These groups will be selected with a view to the fitness of the children, taking into consideration size and character, and the plan of promotion by which the more worthy and deserving will be rewarded, will result in a great incentive of improvement.

Work Begun
Work has been begun. The present funds of the New York Juvenile Asyrum will enable them to pursue their work to a great extent, but not to completion. The force of charity will no doubt lend its strength to this plan and ultimately crown its efforts with complete success. Surely no better charity could be devised than that which provides for the helpless young, and it appeals to all who want to help their fellowman by their endowments or other forms of donations. Any means which makes the foundation for a better State and Government by providing good citizens, on which depend the future of our country, ought to be encouraged.

..NEWS FROM NEAR-BY TOWNS..

MILTON

Milton, April 24.—The concert by local talent for the benefit of the College hall team was an unequalled success and the enclosures accorded each number, evidenced the pleasure of the audience. The programme opened with an overture, "Pleasant Memories" by the orchestra. John W. Johansen played a cornet solo, "La Belle Creole". The college male quartet, Messrs. Whitford, Platts, Van Horn and Seeger, gave as their selections, "Out in the Deep", "Let Me Sleep" Little Peewee, and "The Gobblins". The solo for Piano by President Daland, a violin solo by Miss Lillian V. Babcock and the mandolin solo by L. A. Platts, Jr. completed the exceptionally fine program.

The college base ball team crossed bats with the Crescent athletic nine Wednesday in the first game of the season, defeating them by a score of 7 to 5. The game was a clean and fast one. Neither side scored after the fifth inning. Hinkley, the Crescent South Paw Twirler was in poor shape and was replaced by Cole in the fifth. Crandall pitched a fine game for the college, keeping his hits well scattered. The college boys excelled in team work and demonstrated what hard faithful practice will accomplish.

Rev. S. S. Eldridge, of Oconomoc, visited his daughter, Mrs. W. A. McEwan this week.

Mr. Walsh is some better and the outlook for recovery is more favorable.

F. C. Kruger leaves the Mansfield Creamery next week and W. Hahn, of Johnson Creek takes his place.

CHARM AGAINST ASTHMA

Breathe Balsamic Air of Hyomel—Quick Relief for that "Choking"

Hyomel is just as valuable in the treatment of asthma, as it is in the catarrhal troubles, and many letters have been received from prominent men and women who have been cured of Asthma by this simple treatment.

Rev. George H. Honey of Deer Park, Tennessee, writes: "The Hyomel came last Friday morning. Mrs. Honey had been suffering severely three weeks daily with asthma when she began using it, and after a few times of breathing it the asthma ceased, and has not returned. She has had this trouble since she was seven years old, and we have spent hundreds of dollars in search of relief. When you consider all this, I think it is a most remarkable thing, that once using Hyomel, should remove the trouble entirely."

There is no disagreeable strangling inhalation with Hyomel as with ordinary asthma cures. Its aromatic, fragrant medication is breathed through an inhaler with a preventive of asthma and a cure for acute attacks. It gives immediate relief and prevents recurrence of the disease.

Asthma appears in so many different forms, that there is probably some cases Hyomel will not cure; in these, The People's Drug Company will refund the money, as the proprietors of this treatment write that they do not want to take anybody's money unless perfectly satisfied the good done by Hyomel.

LIBRARY NOW NEARLY MOVED

WORK OF TRANSFERRING VOLUMES ABOUT FINISHED.

THERE IS MUCH WORK LEFT

It Will Take Time to Arrange and Catalogue the Books in a Proper Manner.

About two more days will be necessary to transfer all of the public library books to the new Carnegie building, and the last will probably be taken on Monday. It will be some time, however, before the issuance of books can again begin. There is a vast deal of work to be done in the way of cataloging, numbering, and labeling the books, and it is estimated that at least a month will be required to complete the work.

THE EVENTS OF THE DAY

Art League Met: The Art department of the Art league met with Mrs. L. B. Reynolds this afternoon.

Up to Second Floor: The second floor joists of the post office building are being put in place today.

Dr. James Mills was in Chicago yesterday.

Took Pharmacy Exams: Paul Denett and Carl Schmidt have returned from Oshkosh where they took the state board of pharmacy examinations.

Will Remodel Flats: Dr. E. D. Roberts has purchased the Richardson-Rexford flats on Park place and will remodel them.

To Visit Beloit Camp: The local camp of Royal Neighbors of America will be the guests of the Beloit camp next Tuesday night.

Edgerton Plat Filed: A plat was today filed with the register of deeds of the McIntosh addition at Edgerton and of the subdivision of a part of lot 4 of the Teynton and other subdivisions.

Held County Exams: County Superintendent of Schools O. D. Antisdel today conducted examinations at the high school building for teachers in the first and second grade branches.

Takes Drawings to Milton Junction: Prof. H. C. Buell is planning to take several of the Lincoln school drawing exhibit charts to the spring meeting of the Rock county teachers' association which will be held at Milton Junction, Saturday, May 2. The drawings are those illustrative of history and physiology work.

Spoke Highly of School: When the three high school inspectors who visited the Janesville high school yesterday left last evening they spoke very highly of the grade of work which was being done in the classes which they had visited, and of the general spirit in which the work was done.

Janesville May Get Convention: The First District Federation of women's clubs will probably hold its next annual meeting in this city, the date to be set by the executive committee. This decision was reached at the convention held at Whitewater this week.

To Attend County Convention: J. H. Nicholson, national secretary of the Gideons, will leave tonight with his wife and daughter Maude for Detroit to attend the annual convention of the Michigan state Gideons. Miss Marjorie Nicholson will go as far with them as Milwaukee, where she will visit friends.

At Chicago Dedication: Phil Yeager went to Chicago today, where he will in his capacity as major of Illinois field artillery be present at the dedicatory exercises of the new armory for Battery D. Mr. Yeager has for years been prominent in the Illinois National Guard, and in the days when he was captain of Battery A, at Danville, that body of artillerymen was widely known for its proficiency and excellent discipline.

Attended the Funeral: Among those who attended the funeral of the late Mrs. W. A. Jackson yesterday from out of town were Mr. and Mrs. H. S. Sloan, Edgerton; Mr. and Mrs. W. B. Barber, Rockford; Mr. and Mrs. J. Q. Emery, Madison; Mrs. Richard Tutthill, W. D. McKee, Frank McKee, Mrs. H. H. Hellett, and Mrs. George Mason, Chicago; Mrs. George Lamb, Cleveland, O.; Mr. and Mrs. T. F. McKee, Whitewater; Mrs. A. W. Mayhew, Mrs. Milton Fiske, and Mr. and Mrs. L. S. Pease, Milwaukee.

Pleasant Party: Mr. and Mrs. Will Mehren entertained a party of their friends at their rooms on East Milwaukee street, last evening. Progressive clinch was the leading game. First prize was won by Mr. H. De Mills, while the second went to Mr. B. Willmann. The booby prize was awarded to Mr. D. Montwitz.

Fred Rau is Improving: Mrs. Fred Rau left the city with her two children to make a visit in Cincinnati. She did not go to El Paso, Texas, nor did her mother, Mrs. Dalton, as a report which has been circulated would have it. The last tidings from Mr. Rau, who is in El Paso for his health, are hopeful in the extreme.

SURVEYING FOR NEW LINE

Engineers of Janesville Traction Co. Laying Out Madison Route. Civil Engineer Stowell and Miller of the Rockford, Beloit, and Janesville interurban road are in the city today making surveys of their route which it is desired to take in case a franchise is granted permitting extensions through the city with a view to building in Madison. H. H. Clough, Superintendent Nutt, and other officials of the company are also in the city, having come from Edgerton where they have spent a couple of days in looking up right of way possibilities.

WILL ORGANIZE NEW COUNCIL

MAYOR WILSON MAY CALL MEETING FOR MONDAY.

SIMPLY FOR ORGANIZATION

Health Officer, City Engineer and Other Minor Places Are To Be Filled.

Mayor A. O. Wilson will probably issue a call for the first meeting of the newly elected common council to be held in the council chambers of the city hall Monday evening. Repeated efforts have been made to fix upon a night this week when all of the aldermen could be present, but thus far without success. There seems to be no reason for deferring the meeting for organization until a later night, so the meeting will doubtless come on the regular Monday evening, which will be two weeks from the last regular meeting held by the retired council.

For Organization

When the call is issued by the mayor it will be for "purposes of organization." A regular meeting night will be chosen, which according to the by-laws must be on alternate Mondays. A president will be elected to preside over the meetings in the absence of the mayor. The mayor will deliver his inaugural address. He will also announce his appointment of the standing committees of the council on finance, judiciary, fire and water, highways, lighting, sewerage, schools, police, license, parks, printing, and public buildings.

Elective Officers

Rules will be adopted by the council to govern them in their meetings. The holders of the various public offices, which are changed yearly will also be fixed by vote. Nearly every place has from had a dozen to a score of applicants, most of whom have been busy for weeks past in enlisting supporters among the councilmen. The offices are those of street commissioner, health officer, city engineer, janitor of the city hall, and two assessors.

FINED FOR ASSAULT

Raymond Rouch in Municipal Court for Cuffing Willie Mosher.

Judge Filled in the municipal court yesterday afternoon at about 5 o'clock imposed a fine of \$1 and costs upon Raymond Rouch. The charge against him was assault and battery. It was alleged that Rouch struck and roughly handled a small boy, Willie Mosher, who took a fish line from the river near the Knapp brewery.

CHANGE NAME OF CHURCH TO HOLD THEIR PROPERTY

Beloit Church Finds It Had No Legal Rights at All.

Articles of incorporation under a new name have been filed by the Trinity Lutheran Church society of Beloit with the register of deeds. The church was organized many years ago under the name of the Norwegian Evangelical Lutheran Congregation of Beloit, and an affidavit to that effect together with the constitution of the organization have also been filed. The reason for the action lies in the recent discovery that the church has for years been holding property when it is not technically entitled to do so, no previous papers having been filed with the register of deeds. The property over which the question arose is that occupied by the church, and deeded to the church in 1877 by John Thompson.

BEFORE THE GREAT JUDGE
August Schwauey

The funeral of the late August Schwauey was held from 2 p. m. to 4 p. m. at the church this afternoon at 2:30 o'clock. Rev. C. J. Koerner officiating. The interment was at Oak Hill.

Miss Lydia Nash

The funeral of the late Miss Lydia Nash will be held from her home, 212 Gold street, Sunday afternoon at two o'clock, and from St. Patrick's church at two-thirty.

W. H. Campbell

The funeral of the late W. H. Campbell will be held Saturday morning from St. Patrick's church at 10:30, instead of this morning. The change in date was made in order to allow the presence of George Campbell, brother of the deceased, who is now in the east. W. H. Sargent Post, No. 20, G. A. R., will attend the services in a body. All members of the post will meet at their hall at eight o'clock a. m., and a carryall will leave the hall promptly at 8:15.

LOST HIS HORSE NEAR FOOTVILLE

Milwaukee Junk Dealer's Animal Ran Away and Came Toward Janesville.

H. Sassyly of Milwaukee was in the city yesterday searching for a lost horse and making inquiries of the police officers. Sassyly is a travelling junk dealer, and the horse ran away from him Wednesday near the Footville creamery. The wagon was demolished and the horse broke away from the harness and ran as far as this city. It has been impossible to trace the animal farther. The horse was white with a silt in its left nostril and two spavins.

GOLF CLUB WILL BE IMPROVED

AT MEETING LAST NIGHT CHIEF WAS CHOSEN.

LUNCHES WILL BE SERVED

The First Beloit Member Was Voted Into the Siniissippi Club Last Evening.

After June 1st the Siniissippi Golf club will have the services of a chef at the club house. His action of the directors of the club last evening, proposition of Louis Moulton to serve in that capacity was accepted. He will receive no remuneration from the club, but the kitchen utensils, dishes, and silverware belonging to the club will be turned over to him, and those who make use of them will be expected to pay Miss Moulton for that privilege, as well as for the lunches or meals which he may be called upon to serve.

A Club Chef

It is felt that this arrangement will meet a crying need which has been felt in the past, and will practically do away with the picnic lunches which have been the rule in the past. The custom is the same which has been in vogue at the Maple Bluff club at Madison and many other clubs where it is the swagging thing to hold suppers and lunches served by the club chef.

Mr. Moulton is well known in this city as a first class cook, having been employed for several years in Colvins' bakery, as well as in hotels and restaurants in this and neighboring cities. The directors canvassed the ground thoroughly before fixing on him, and are satisfied that they have a man who is fitted for the position.

Formal Opening

Besides engaging Mr. Moulton's services the board of directors last evening transacted other business incidental upon the formal opening of the season, which will probably occur within a week or two. April 30th was suggested as a satisfactory date, and will probably be fixed upon.

The first Beloit member was voted into the club last evening, Roy Rockwell, who was president of the defunct Beloit golf club, and one of the most enthusiastic of the Line City golfers. It is expected that several other Beloit players will be added to the club's roster before the end of the season.

NEW GAS LIGHT CO.

...Forty Years Ago...

Janesville Daily Gazette, Friday, April 24, 1863.—Dr. Burbank, assistant surgeon of the 22nd regiment will leave for Indianapolis next Monday. The object of his visit here was to urge the reorganization of the regiment, and to procure a hospital in this state for Wisconsin soldiers. Gov. Salmon's visit to Washington has the latter object in view. The benefits of such a hospital are obvious to all.

The legislature of New York has passed a bill, and the governor has signed it, giving bounties to those who enlist, and to those who now enlist as volunteers. It provides that all those who enlist for two years or more during the war shall receive a bounty of \$150; those for one year \$50 and all new volunteers for three years through the war, \$75 each. The sum of \$3,000,000 or so much as may be necessary, is

appropriated, and a tax of two mills levied to meet the same.

A letter from Washington, D. C., gives the news that a steamer is to try to run the blockade, carrying letters. The situation is critical and surrender may be necessary. There is hope of relief by way of Newbern. On the whole affairs look rather dark just now.

James S. Addison and Anthony Addison who were arrested on a charge of carrying the mails to Rev. John Martin who was detected in forwarding letters clandestinely into the rebellion, were released. It was shown that the act was neither of necessity or kindness. These gentlemen have for years been in habit of taking home with them letters in the office at Washington, addressed to their neighbors, among whom is minister Martin. This was the only connection with Martin of treasonable postal practice.

one little bit on his statements, but he wouldn't show the green. I did my level hardest to place the money, but not for Peter L. Myers! Along toward four o'clock I withdrew all bets, but up to that hour I'd have had a good thing if Mr. Manager had stood pat."

Redway has a string of stories that are worth hearing, as he tells them. Perched on a trunk in his dressing room at the Myers Grand Wednesday night he reeled off yarn after yarn, and a right royal raconteur he was.

Because of his undersized build Redway is known by many of his intimates as "Shrimp." Last December he was given a handsome little bull terrier by a Buffalo, N. Y., admirer. The animal was only a puppy of a few days existence and was such a tiny brute that his master's nickname was naturally passed on him. Since then the dog has become greatly attached to several members of the company, and especially to Redway who can hold "Shrimp" up by the tail or a single leg without protest.

"There's a dog that's worth having," said Redway, pointing to the little animal where he lay curled up on a trunk in the corner of the dressing room. "Early in the winter we had a fierce run of hard luck. Bad business was the rule at every stand. Since I got the dog we haven't had a bad week. It has been packed houses and big applause every night."

"But here's the best one of them all," continued Redway. "It happened today and it's a gospel fact as any one in the company will tell you. Several years ago when Jones and I were playing in '1492' there was a young lady in the company named Alice Hayden. Her home was in Madison, and when we stopped at Madison this noon on the way down here from La Crosse, we remembered it, and decided to look her up."

"We found her name in the telephone directory and I called her up. She answered in person. She had been married at eleven o'clock this morning, very secretly, to a Milwaukee lawyer, and was going away on her wedding trip this afternoon."

"When we took the train this afternoon, who should get on board but Miss Hayden and her husband. We made a quick rush to a store and bought about ten pounds of rice. Just as the train started to pull out and the newly married couple were congratulating themselves on eluding their friends, we called down upon them. They were buried in rice before they recognized us. Then we brought up the double quartette, and sang 'We're All Good Fellow Boys,' and kept up the fun until the train pulled up at Janesville."

Reception for Members: This evening reception will be held at the First M. E. church, at which all of the members are expected to be present, though written invitations have only been extended to those who have recently been connected with the church.

Gypsum Its Importance in the Eastern part of U. S.

The gypsum deposits of the United States will be described in a forthcoming bulletin of the United States Geological Survey which is in preparation by Mr. George I. Adams. The development and the importance of the industry in the eastern part of the United States are fully recognized and described, but it is as showing the vast mineral resources in the southwestern states that the publication promises to be of special interest. The belt of country extending from Iowa through Kansas and Oklahoma, and into Texas, includes the plants which produce a large part of the output west of the Mississippi river. The deposits in these states are not only practically inexhaustible but the quality of the material and the position of the beds with respect to railway transportation make it possible for them to supply the markets of a large territory.

The gypsum is used principally for wall plaster, and the most important markets are the large cities in which modern buildings are being constructed. Gypsum plaster is largely displacing mortar as wall finish. Not only is it found to be more suitable and durable, but its strength and hardness, and the fact that its construction can be completed more quickly when it is used, have brought it into favor.

In the Rocky Mountain states and the region westward to the Pacific coast, the gypsum industry is in its infancy. There are plants in the black hills of South Dakota, in Wy-

oming, Colorado, New Mexico, Utah, Nevada, California and Oregon. Some of them have a large capacity and their product is finding a ready market. This is more particularly true of those which supply the larger cities. The deposits are well distributed in these states, and the character of the gypsum is such that they can meet any requirements of the trade. No doubt the industry will advance with the growth of the country, and when the value of gypsum plaster is better appreciated it will displace the lime and sand plaster in these states as it is doing in the East.

Formerly gypsum was imported into California from Mexico. The development of the deposits on the coast makes this no longer a necessity. The imported material was used principally as wall plaster, but the high grade of the home product and the fact that it is advantageously situated with respect to railroad facilities have crowded the Mexican gypsum out of the market.

In the western states there is little need of gypsum as a fertilizer, since the soil is naturally rich, and has not been impoverished by long cultivation. Where there is black alkali in the soil, however, or where this alkali has developed as a result of irrigation, gypsum is applied to neutralize it, and is found to be effective. Fortunately in most cases gypsum beds are found in areas in which there is a demand for it for this purpose, and their great value in reclaiming the soil is rapidly coming to be recognized.

Some Very Old Wines.

Charles Bellows, a state appraiser, whose house is at 30 Pierrepont street, says the Brooklyn Eagle, paid a short time ago \$5,000 for a cask of old sherry wine. It is nearly the oldest wine in the world. It is called Napoleonic wine and is of the vintage of 1767. It was preserved especially for Napoleon and none was ever sold except a little to the king of Spain. This is the highest price ever paid for a cask of sherry wine.

Mr. Bellows was at first averse to talking about some of the wonderful wines and rare bottles running back hundreds of years in his possession, "because they are not for sale under any circumstances."

Besides the great collection in his home that is the only one of its kind in the country, there is an odd collection of old wines and bottles in his New Street office.

Mr. Bellows intends to give the quaint lot of bottles to his old home town of Walpole, N. H., where he has an estate granted his ancestors by King George II. In recognition of their services in holding fort No. 1 on the line of defense to Canada. He declares: "People are not enough aware of the curious interest that attaches to old wine bottles to appreciate them. The museum of the Brooklyn Institute thinks too much of pictures, instead."

He also said that after his death the rare wines should be sold by auction. Then he showed wine that belonged to Admiral Nelson, worth \$4,000 a cask, vintage by De Castro de Palermo of Novex, de la Frouhier. The other day a Spaniard presented him with a bottle of Marsella wine made in 1801 for the duke of Brente, who was acting for Napoleon in the Tuilleries. Mr. Bellows then showed wine which belonged to the duke of Wellington, costing £500 a cask.

Mr. Bellows says he found most of his wine in unheard-of places, where it had been long forgotten. "One day," he said, "I found a sample of wine in an old barrel in Peck slip. The casks had been packed and the marks obliterated. The upper staves of the casks had rotted. The color had disappeared from some atmospheric cause, so that it was called 'rain-water Madeira.'"

"After looking up the history of the find it was discovered to have been brought here in the ship Juno, in 1821. I sent the original finder a proposition, which was accepted. The wine was in a clear but colorless condition. One hundred and twenty dollars a dozen bottles have been refused for it."

The curious bottles which Mr. Bellows will give to the library of Walpole have become iridescent from age. He has the first bottles made in America, at Temple, N. H., by Hessian soldiers of the British army in 1767. He heard of an old glass factory buried there, so one summer he went to unearth the site. He found 3,000 mostly broken. His bottles are nearly all Madeira, including old magnums, belonging to Geo-

Buchanan in 1800. First British consul; railroad bottles commemorating the first railroad at Lowell in 1834—for many old bottles have some mark commemorating an event of national importance. He has the first impressed bottles, bearing the profile of Washington and the flag of the thirteen states. There is also the earliest known Florentine flask, the oldest demijohn in the country, showing how it was made in halves and seamed. He also has several Pike's peak bottles of 1849.

Town Talks.

"I'll tell you a good one on Manager Myers," said Edd Redway, the Irish-faced Dutch funny man of the "Chaperons" company. "If it wasn't for his unwillingness to back his convictions with his cash I'd be just \$500 to the good. It happened when we played this city last year. Walter Jones left that day for New York, and consequently did not appear in the evening. Myers got a straight tip toward noon that Jones was to turn up missing when the curtain rose, and figured it out that Walter was already speeding toward the east."

"As it happened Jones came here from Beloit with the rest of us, and was to leave at four o'clock in the afternoon. When Myers sprang his assertion on me that Jones wasn't in the city, I got ready to rake in a little coin, and offered to bet him \$500 even money that Jones was in Janesville. He didn't back down."

Bed

Ridden From Severe Heart Trouble.

Pale, Weak and Constantly Tired.

Dr. Miles' Heart Cure Cured Me.

"I write to thank you for the cure I received from your medicine. When I began taking your medicine I was confined to my bed most of the time. Our best home doctors told me there was no cure for me on account of the weak condition of my heart. I was pale and weak, constantly tired, had no appetite and could not sleep. I was exceedingly nervous and easily irritated in consequence. At last I began taking as a last resort, Dr. Miles' New Heart Cure together with Dr. Miles' Wine of Sarsaparilla. I was helped from the start and I cannot say enough in praise of these wonderful remedies. I can truthfully say they are the best medicines I ever took. They cured me and I am now able to work on the farm every day. I gladly recommend your remedies to all sufferers."—Wm. B. Campbell, Mantorville, Minn.

"For years I could not turn my head to the right but it caused great pain in the back of my neck and it seemed at times my head would burst with pain. I would sometimes lie down, and could not get up without help my neck was so stiff. About once a week I would have to go to bed with a very severe headache. By using one of Dr. Miles' Nerve Plasters on my neck and occasionally using the Anti-Pain Pills, which always relieved the headache instantly, I completely overcame my trouble, and both headache and stiffness have disappeared."—Miss Lucy Billows, Cleveland, Ohio.

Coming Attractions.

"Janice Meredith" a dramatization by Edward E. Ross of the famous novel of that name to be presented at the Myers Grand Theatre on Monday, by William Bonelli, Rose Stahl and their excellent company is the only play having directly to do with Revolutionary war times that has lived. Since its run of three weeks at Wallace's theatre, New York it has enjoyed nothing but the greatest success, while the novel since the death of Paul Leicester Ford has gone into the seventh edition, its

ton, to which Fownes, disguised as a British private, gains entrance and overhears their plans of war. He is about to leave the room in safety when an insult offered Janice by one of the British officers provokes him to the point of desperation, and for getting his mission he tells the man in his tracks. Janice, however, contrives to get word of the difficulty to the Colonial troops, who decide, that night, to cross the Delaware to Trenton, and the American soldiers are heard outside the building, just

sales aggregating 350,000 copies. The play concerns a manly young fellow named Bereton, bound, after the custom of the period, to the father of Janice, a tory. He is discovered by the English, organizing the villagers to fight the Britishers and is captured. Janice, who has become much interested in the brave young fellow, and who is at heart in sympathy with the Colonials, makes his escape possible. He then resumes his own name of Fownes, and is appointed an aide on the staff of General Washington. He is made a spy, but through a blunder it is discovered that Janice has given him certain information and the girl is arrested. She is taken to headquarters at Tren-

as the execution of Fownes is about to take place. The book is closely followed except in the incident of the elopement of Lord Fownes and Janice, which does not take place in the play. A sumptuously mounted production is promised. Mr. Bonelli is of course ideally fitted for the role of Fownes, and in Rose Stahl, the Janice of the play, he has a leading woman, among few are equipped to play the part of the saucy, wistful girl. The play is in four acts, the battle tableau at the end of the second act and the third act setting, showing an old ruin, scarred and toppling from an artillery attack, being particularly effective.

WASH WAISTS

The demand is here, and this store is well prepared with all of the new ideas. Beautiful white lawn waists, tucked and embroidery trimmed, 50c, 60c, 80c, \$1.15, \$1.35 and up to \$4.00. Heavy mercerized waists, \$1.25 to \$5. Linen waists with drawn work, \$3 to \$5. In all of these higher cost waists there are but one, two or three of a kind, so styles will not be common. We have the sale for Janesville of the "Gelsa" Waist, and the New York market produces no better line of high character waists.

Muslin Underwear

Just in, is a new line of muslin undergarments made by the Standard Mfg. Co., of Jackson, Mich., all of which bear the "White Label." Special value Corset Covers at 25c, 50c, 60c, 80c, and \$1.15.
